POP-UP EVENTS & ONLINE SURVEY FINDINGS | OVERVIEW

PAVING AND DESIGN OF THE STREETScape AREAS

LIKE THE APPROACH?

COMMENTS

- Materials throughout the corridor should be **consistent to create a sense of continuity** (same in north and south)
- Amenity areas : more **approachable paving materials** (texture, color)
- Consider **complementary material palettes amongst neighborhoods**
- Consider **larger pavers in some areas**
- Good **mix of green & modern concrete** features; good compromise of warm & cool colors
- Consider more **beautiful design accents for poured concrete** to enhance design
- Consider **non-slip, pervious** pavers
- Concerned about **durability and color retention** over time

CONCRETE PAVER OPTIONS

OPTION A
HIGH CONTRAST

OPTION B
MORE GRAY, LESS RED

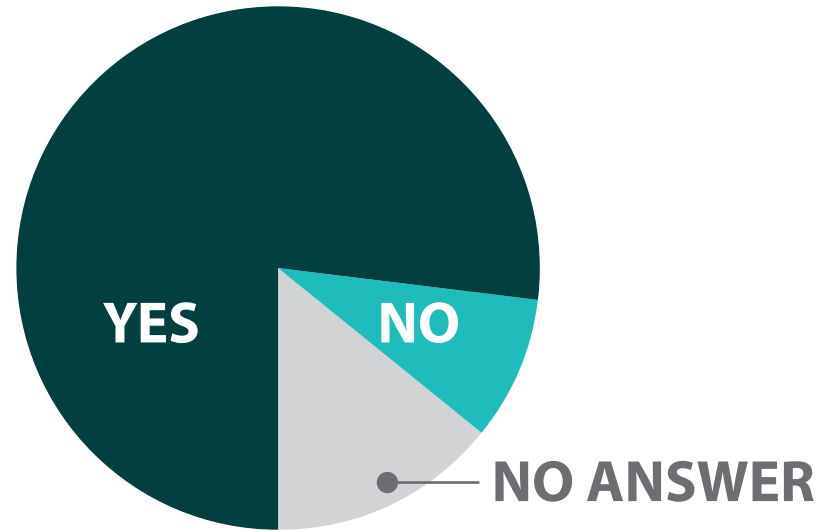

OPTION C
MORE RED, LESS GRAY
